IN YOUR ELEMENT

Faith

To be in your element means to thrive in your environment and excel in the strengths God has given you. We are in our element when we are in a relationship with Jesus.

Sports

Athletes are in their element when they understand their purpose, practice their skills, find their position, and overcome pressure to reach their full potential.

Science

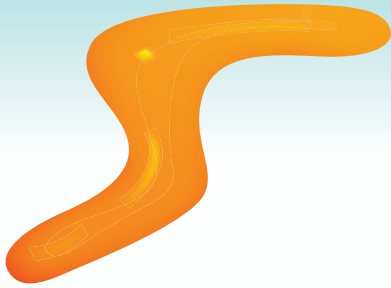

Everything God created is made up of building blocks called elements. *In Your Element* is all about measuring your strengths and learning how to excel in your abilities.

RECREATE THIS AWESOME STAGE DESIGN FOR YOUR VBS!

In Your Element is inspired by sports science, so we dreamed up this fun sports lab—a place where athletes can measure their strengths and learn how to excel in their abilities.

Pegboard Wall

At the heart of our stage design, we have our MEGA Sports Lab sign. The base is made out of pegboards painted white. We painted additional science elements onto the board. Use S hooks to hang sports equipment from the holes. Or, purchase the *In Your Element* backdrop (p. 14) to take the place of this sign in your set.

Cubbies

Cube organizers highlight sports and science items which helps tie in the sports lab theme. Use sports equipment and learning tools from your closet to fill the cubbies. LED lights attached to the upper side of the cubbies showcase the items.

Pipes

Pipes help bring the sports lab theme to life. We cut 3" PVC piping and assembled them so they connect. Paint the pipes bright colors. For an inexpensive option, use pool noodles to create a similar effect.

Balloon Wall

The balloon wall gives additional texture and color to the set. Add sports balls or inflatables.

Walls

Our two walls are created with foam board. You can create additional framing to allow the boards to be freestanding. Use these walls to hang sports equipment from.

MAKE SNACK TIME FUN!

Create awesome snacks at your camp and have everyone smiling.

Test Tube Candy

Purchase test tubes in bulk online or from a local store. You can fill the test tubes with candy like Skittles or M&Ms. These would be a fun gift to send home with kids after playing hard at camp.

Fruit Molecules

Make fun fruit molecules using grapes, melon balls, and toothpicks. Use a melon baller to make sphere shapes. Or go savory with sausage and cheese.

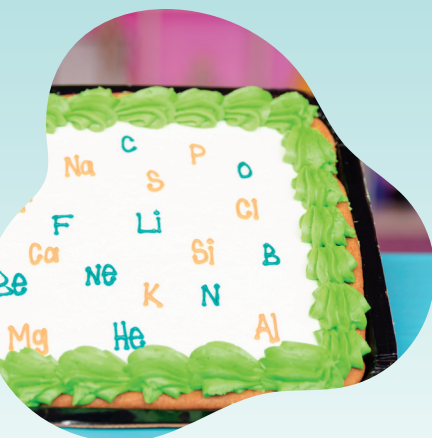

Candy DNA

We made DNA strands using licorice and gummies. Toothpicks hold everything together. Another option is using twist cheese strings. They already resemble a double helix.

Graham Cracker Rulers

To represent measuring, decorate graham crackers to look like rulers. Cut the graham cracker in half so they are long and narrow. Use icing for the measurement lines. Make into sandwiches using ready-made frosting.

Element Cookies

We decorated this giant cookie with abbreviations of periodic table elements to show sports and science together.

ACTIVITY IDEAS

Create a space for the kids to do some sports experiments after they check in every day. Some of the fun things you can measure are:

- | | | |
|------------|------------|---------|
| » HEIGHT | » BALANCE | » SPEED |
| » STRENGTH | » ACCURACY | |

Some examples would be measure height, how far or high they can jump, how many times they can dribble a basketball or jump a rope without missing, running sprints where they touch the floor and return, how many pushups or situps they can do, how long they can balance on one foot, etc.
